**Einhell**

**Messingbürste**, ideal geeignet zur Trockenreinigung von unempfindlichen Oberflächen, wie der Entfernung von Flugrost, Verkrustungen sowie für feine Schleifarbeiten oder Lackentfernung an Holz, Stein und Metall. Die weichen Messingborsten eignen sich außerdem perfekt für die Reinigung von Guss- sowie emaillierten Grillrosten. Die nach außen gerichteten Borsten reinigen bis tief in die Zwischenräume der Streben. Nicht geeignet für lackierte Oberflächen, die man nicht entlacken möchte!

**Brass brush**, ideal for the dry-cleaning of non-sensitive surfaces, e.g. removing stubborn dirt such as flash rust and incrustations, as well as for fine grinding/sanding jobs. The brass brushes are perfect for cleaning cast and enameled barbecue grids because the soft bristles do not destroy any sensitive enamel or protective patina, leaving the corrosion protection measures undamaged. Removing paint from wood, stone and metal is effortless. The outward pointing bristles clean deeply into the gaps between the struts and work not only thoroughly but also particularly quickly. Not suitable for painted surfaces from which you do not want to remove the paint!
